News Vesper concert Sunday at First M. E. church will be for benefit of Japanese relief and concert will be made up of Japanese songs.
Terrapin stock in the salt marshes near here yesterday took a jump when 200 were replaced, being sent here from the government fishery in North Carolina.
Composite picture of the membership of the Jefferson County Bench and Bar were put in the mail yesterday. Leon Stanford and J. B. Morris are president and secretary respectively of the association.

DECAYING BODIES LITTER STREETS

Quake Loss to Total Ten Billion Dollars, Estimate

DISEASE SPREADING

Three Hotels Engulfed by the First Big Shock

TOKIO, Sept. 5.—Earthquake shocks are still being felt in Tokio.

Yokohama is utterly annihilated. Most of the foreigners are dead.

Thousands of five-day old dead lie in the streets. The stench is terrible.

Six million people are homeless in the devastated area. Losses will mount to \$10,000,000,000.

Charred ruins, fragments of houses, cover the sites of once thriving cities and towns in the earthquake zone, which presents a scene of utter desolation.

DISEASE SPREADS. PEKING, Sept. 6.—Efforts to get into wireless communication with the Mitui radio station failed today, due perhaps to further earthquakes in Japan, or to severe static.

Sporadic rain, drenches from survivors of the great disaster. Food is very scarce and disease is spreading as survivors in many areas are forced to dwell among corpses of people killed five days ago.

3 HOTELS TOPPLE OVER CLIFF. PEKING, Sept. 6.—Three hotels in the bluff residence district of Yokohama were hurled over a cliff by the first tremendous earth shock there and their occupants dashed to death, according to an eye witness of what was perhaps the most terrible single incident of the quake disaster.

Only a few pitifully injured survivors crawled from the ruins, the witness, Rodolick G. Matheson, correspondent of the Chicago Tribune, said upon arrival at Kobe. A major portion of the residents of the bluff district perished.

The Oriental Palace hotel was almost swallowed up by the quake. It disappeared into a great rent that opened suddenly in the heaving earth until only the top story and a half remained visible above the ground.

That caught fire. Casualties here terrible.

Frantic calls for help went unanswered as the frequent shocks and fires drove away would-be rescuers.

The French orphanage at Yokohama housed sixteen sisters and 100 children, according to Matheson. It went down, a heap of ruins. There were no survivors.

King Tut Arch at Shrine Fete

Modern Antique to Guide the Way to Circus Grounds

With the 14 committees in charge of the Shrine club circus preparations humming like so many well-tuned cylinders, the preliminary work for the celebration is nearing the final stage.

Committee chairman in conference with General Chairman A. B. Miller last night mapped out their final plans which will put the festivities of September 11 to 15 over with a rush and reported gratifying results in the work to date.

It is estimated that in the neighborhood of 150 nobles and ladies will be required to take care of the detail work incident with the staging of the circus.

Work on the arch which will mark the entrance to the circus grounds has been going along rapidly. The arch will be some 40 feet long by 22 feet high, designed after the style of the King Tut architecture unearthed at Luxor, Egypt. Thirty local firms will be interested in the art work on the arch.

Represented in the ticket selling contest continues at a white heat with several young ladies battled for the first place. Lead today was held by Miss Anna Drummond with Nora Brinkley pushing the leader hard in second place. Following closely behind the two leaders are the following who have good chances to swing into the lead of the column at any time.

Misses Lucile Clark, Nina Dowdy, Tessie Johnson, Elsie Granger, Margaret McGuire, Jennie LeBlanc, Frankie May Taylor, Laura Thurber, Frankie Stewart and Mrs. H. W. Morrison.

A trip to Hollywood, Cal., will be awarded the successful contestant, with other rewards to the three next highest sales recorded.

Sunday Vesper Musicales to be for Quake Relief

GIVING their talents toward raising funds for alleviating the suffering among the millions of people in stricken Japan, Port Arthur musicians and a number of Japanese sailors from the Japanese steamship Ryufuku Maru, now in port, will present a program of Japanese music Sunday afternoon at 5 o'clock in the First Methodist church, Stillwell boulevard and Lake Shore Drive.

This is the second Sunday vesper musicale to be sponsored by The News, and the free will offering to be taken next Sunday afternoon will be turned over to the Port Arthur Red Cross chapter to be forwarded to the Japanese disaster relief fund which the Red Cross is raising throughout the

United States.

Among the numbers for the Sunday vesper musicale will be the soprano aria from Puccini's Japanese opera, "Madame Butterfly," "One Fine Day," which Mrs. Rupert Theobald will sing. Mrs. Gladys Button, soprano, and Miss Frances Canada, contralto, will sing Loge's "Across the Still Lagoon," a boatman's love song. Frank Kerns, violin cellist, Mrs. Neal D. Rader, violinist, and E. H. McGuire, organist, will play Fox's "Japanese Sunset," and other selections, vocal and instrumental, carrying out the Japanese idea, are being arranged for the Sunday program.

Japanese decorations and flowers will be placed

in the First Methodist church by the Martin Art Store and Gift Shop, and the atmosphere of Japan will be further carried out by the singers wearing Japanese costumes, as will also six or eight members of the Port Arthur Junior Red Cross, who will take up the free will offering at the Sunday vesper musicale.

Definite arrangements for the musicians on the Japanese steamship Ryufuku Maru to participate in the program of the Sunday vesper musicale are being made this afternoon, Captain Naoye Sakaguchi, of the ship, taking personal charge of the arrangements for having a number of the Japanese musicians from the ship appear on the program.

League to Force Italy to Mediate

OPEN DREDGING BIDS TUESDAY

\$1,700,000 District Program to Take Two Years

150 FOOT BOTTOM WIDTH

Specifications Also Call for 30 Foot Mean Low Depth

Bids on the Sabine district's \$1,700,000 expenditure for the deepening and widening of the Port Arthur ship canal and the Sabine-Neches canal are to be opened Tuesday at Galveston, government engineer T. W. Clarke said Thursday.

Work on the project will be started as soon as possible after the letting of the contract. A two years program is anticipated.

In this program calling for the expenditure of the above amount, the plan calls for the widening and deepening of the canal from whistling buoy to Beaumont, a distance of some 49 miles.

The specifications call for a mean low depth of 30 over a bottom 150 feet wide in the Port Arthur canal, making a top width of approximately 320 feet.

In the Sabine-Neches canal the same depth will be carried out to a 125 feet bottom with about a 240 feet top.

At present the Port Arthur waterway has a bottom width of 150 feet and the Neches a 90 feet bottom, under 20 feet of water.

Because of furnishing the right of way for the improvement in the canal, Port Arthur will not have to stand any of the expense of the work. With Beaumont and Orange, however, it will be different.

The former bearing \$175,500 of the expense against Orange's share of \$175,000.

According to Engineer Clarke these operations when started will have no effect on the use of the canal.

Nitro Warehouse Lets Go, One Killed, 6 Hurt

MARTINEZ, Cal., Sept. 6.—One man was killed, six injured and a nitroglycerine warehouse of the Hercules Powder company destroyed today when a ton of nitroglycerine exploded at the plant at the Hercules factory a few miles from this city.

The force of the explosion shook the countryside for miles around. Windows in houses and other buildings near the plant were smashed in.

COOLER WEATHER GULF STATES NORTH

A slight general temperature decrease over the entire Mississippi valley was experienced yesterday, with a severe drop of 18 and 15 degrees, respectively in Montana and North Dakota.

Rain was general along the entire western gulf coast with the exception of the Corpus Christi area.

TAKES POISON

Mrs. P. Dobrick Seriously Ill: Family Trouble Blamed

Mrs. Paul Dobrick, 307 Seventh street, rear, is reported in a serious condition at the Mary Gates hospital following the taking Monday morning of a bottle of mercury tablets.

At the hospital late this afternoon Mrs. Dobrick's condition was said to be serious. Police are under the impression that the poison was taken with suicidal intent, they said, and family trouble is claimed as the cause by them.

\$39,050 Is Cut Off W. C. Tyrrell Total by Board

Valuation Lowered to \$536,400 from \$575,450—Recheck To Be Made of the Deutscher Property.

Changes in property valuations made by the equalization board today amounted from \$500 to \$500, and in some cases as high as \$6,000.

In the main, property owners earned leaving the chambers where the board is in session declared themselves satisfied with reductions granted by the body.

Recheck Deutscher Building. A reduction of approximately \$39,050 was made in the valuation of the

Valuations 30% Less Than Property Worth, Says Mayor Logan

Hearty accord with the resolution presented to the city commissioners by the chamber of Commerce was voiced Thursday by Mayor J. P. Logan. In the resolution it was recommended the commission keep down the valuations on local property and, if necessary, boost the tax rate.

"Toward the end of holding down valuations as far as possible we have based our tax valuations at 70 per cent of the actual valuation. If we were to take the actual valuation as the basis of our tax assessments, we would have a valuation of some \$40,000,000 on Port Arthur property. The valuation figures prepared by the experts represent seven-tenths of the real valuation of the property."

"If there is any one who feels that his property is not worth 70 per cent more than the valuations we have set to talk over the matter with him and if necessary send another checker around to appraise the property with the owner."

Appraisers on Captain W. C. Tyrrell's property, it was learned, it being recalled that Captain Tyrrell is Port Arthur's largest tax payer in the city. His property was originally valued at \$575,450, according to Mayor Logan, at about \$379,900. The figures of Stoner, Gallagher & Gross (Turn to Page 2 Column 2)

Legion Minstrel Revue To Be Given Sept. 27

Rudolph Lambert post, American Legion, will present a combined musical revue and minstrel in the Elks Theatre, September 27th, post officials said today.

Louis Lacy, of the Chris Ming Theatre Production company, comes to Port Arthur next Monday to start lining up definite plans for the presentation of the show. Legion officials said. He brings a complete line of costumes and scenery, they said.

Truck Is Thrown Upon Walk as Cars Collide

What bore all the possibilities of a fatal accident was narrowly averted at 3 o'clock Wednesday afternoon at Charleston street on Porter when two cars collided, throwing a Ford delivery truck of the Texas Laundry company, Beaumont, up on the sidewalk.

Charles Alexander was the driver of the delivery car. The other machine was driven by Mrs. O. C. Gerhardt. Both machines were damaged.

Herpin Warns Against Obstructing City Drains

Steps to prosecute persons who obstruct drainage were promised Thursday morning by City Engineer Herpin.

"Those who would build culverts or bridges across gutters and sewers must first get permits from this office," Herpin said, "and anyone caught throwing grass and rubbish in the gutters will be prosecuted, as it is against a city ordinance."

FILE SUIT TO REMOVE MINOR'S DISABILITIES

BEAUMONT, Tex., Sept. 6.—An ex parte suit for the removal of disabilities of Alvin Gentil, a minor of Port Arthur, was filed Thursday morning in 58th district court.

WEDDELL NAMED AS ONE TO SELECT GRAND JURY

Special to The News. BEAUMONT, Tex., Sept. 6.—George Weddell of Port Arthur, Bryan Kyger of Beaumont and Fred Woods of Port Neches were appointed by Judge O'Brien in 58th district court to select 16 men for the next grand jury. The grand jury will be picked from this number and will probably go in session about October 1.

PLANT 'Q' CHIEF INSPECTING HERE

Pending the investigation conducted by Clyde Trotter, inspector of plant quarantine under the department of agriculture, out of Galveston, Port Arthur may get a plant inspector for the Sabine ports.

Trotter has been here for the past two days inspecting the cargoes entering these ports as to their nature, character, nature of food on vessels and the local port facilities.

Because of the strict quarantine maintained against certain plants and foodstuffs being imported, it is considered likely that an inspector will be established here.

18 KILLED

Dutch Train and German Express Collide

BERLIN, Sept. 6.—Eighteen were killed and fourteen injured in a crash of a Dutch train with the Berlin-Cologne express at Wuppertal.

MISS SANDALL IMPROVES

BEAUMONT, Tex., Sept. 6.—Miss Mary Sandall, county school superintendent, who had been tonically removed at Hotel Deu Monday is reported to be getting along all right and will return to her office about the first of next week.

One More Match Might Have Saved Negro \$25 Fine, 60 Days in Cooler

Ed Brown, negro, wazed aggravated when Antonio, his wife, got him but three matches when he asked for some. As a result of striking her he was assessed a fine of \$25 and 60 days in jail in corporation court this morning.

Ray Reed, another negro, mixed things with his wife Addie and was set back \$25 and 10 days in jail. There were but two cases in corporation court this morning.

WIFE NO. 8 TESTIFIES AGAINST WICHITAN

WICHITA FALLS, Sept. 6.—S. S. Alexander, arrested for alleged wife desertion, has been married eight times. Wife Number 8 testified in court here.

MILLER DIES OF T. B.

KEARNEY, N. J., Sept. 6.—John Miller, manager of the San Francisco team of the Pacific coast baseball league, on a leave of absence because of illness, died at Saranac Lake last night of tuberculosis, according to relatives here.

News Aquatic Carnival Winners to Represent Port Arthur in First A. A. U. Rules Contest Held Here

Splash—ker—plunk! They're off!

Brawny swimming athletes from several sections of Texas, the prizes of their respective communities, will pit their strength and skill against Port Arthur's fleetest tank artists tonight in the first amateur state swimming tournament held in the Lone Star State.

Exactly at 8 o'clock, the first number of the program of events arranged by Professor Harry Coughlin, famous southern instructor, will be called, and water stars who arrived here early today and last night in quest of amateur state laurels will push off after the titles.

"Rain or shine," Professor Coughlin announced last night, "the meet will be held, and the championships decided among those who are in evidence."

A crack swimming team from Houston, Texas, representing the YMCA from that city, was the latest entry to sign up. They telegraphed the Plaza Nat. where the tournament will be staged tonight under the auspices of the local YMCA, their desire to enter the lists, and Professor Coughlin wired back: "Bring 'em on!"

Winners in the News Aquatic Carnival, held during the past summer at Plaza Nat. and a pick of several other local swimming luminaries will plunge into the tank tonight to represent Port Arthur.

Dallas, Beaumont, Orange, Two. The local artists have put in several weeks of strenuous training in preparation for the state meet, and Instructor Coughlin declared this morning that they are in perfect trim for the occasion. Upon their skill and endurance tonight depends Port Arthur's fate in the meet.

A fast swimming team from Beaumont, representing the Beaumont YMCA, a star performer from Dallas, a crew from Orange and independent amateur swimmers from several other sections of Texas are due to arrive here tonight to participate in the big event.

AFFIRMS RIGHT IN GREEK CRISIS

Deadlock to Result in Italy's Withdrawal, View

MUSSOLINI HURLS DEFY

Eyes of World Turned on Supreme Test of League

GENEVA, Sept. 6.—The league of nations council has affirmed its competency to adjudicate the Italo-Greek dispute, in the face of Italy's threat to leave the league if this is done.

The council met in private this morning, with no Italian delegates present. A decision sustaining the league's competency, challenged by Mussolini, was taken and a public session of the council called for five p. m. for the purpose of adopting a resolution to that effect.

To Enforce Article 16. The council's decision means that the league will stand upon its right to enforce provisions of article 16, regardless of the size of the nation involved. Mussolini protested that Italy's dignity and honor were involved and that this was not a matter in which the league was competent to mediate.

If Italy does as her delegate M. Salandra, threatened, she will withdraw from the league. What steps will then be taken in the Greco-Italian impasse remains to be seen.

Great Britain Pessimistic at Outlook

By United Press. LONDON, Sept. 6.—New antagonistic moves on the part of Italy on Greece has heightened pessimism here. Italian marines occupied three more islands in the vicinity of Corfu. Italy filed with Greece a claim for from 15,000,000 lire to 20,000,000 lire as the first costs of the occupation of Greek territory as a punitive measure for the slaying of Italian commissioners at Janina.

A regiment of infantry, the 40th Italian, was garrisoned on the island of Paxos and Antipaxos.

A Greek journalist named Tramenis was arrested by Italians while in a sailing vessel on the high seas.

Mark Apprehension. Italian men of war were seen near the little group of islands which Italy has seized, torpedo boats, hovering about watching all Greek vessels that arrive or leave.

A meeting of volunteers Garibaldians, who fought for Greece against Turkey in 1907, adopted a resolution denouncing the massacre and decided to return their Greek war decorations.

Benito Mussolini has made a speech at Rome declaring that Great Britain and other countries sympathize towards Greece need a demonstration of Italy's calm and righteousness.

These developments caused no little apprehension in this country, where it is felt an outbreak of war between Greece and Italy must inevitably be followed by all the Balkans being drawn in.

OILER KILLED

Boiler Explodes at Richmond, Two Others Hurt

CORRICANA, Texas, Sept. 6.—O. L. Rawce, 20, was killed and J. C. Morgan and Bob Whitcomb were injured when a boiler exploded at an oil well near Richmond yesterday. Whence died en route to the hospital.

JEALOUSY BLAME FOUND, CLAR

Arrest May Follow Suspicion Theory Holds

DOGS TAKE TRAIL

Dead Man's Father in Conference With Tolve

BEAUMONT, Sept. 6.—John onay was the motive for the murder of Miss Bessie Carl, a year-old Houston school girl, and T. O. Rial, 22, of Beaumont, whose mutilated bodies were found near here yesterday, authorities believe.

Search for the perpetrator of the crime was being conducted along this line today. A Beaumont man may be arrested within 24 hours if investigation bears out this theory, officials said.

The man is believed to have been attentive to the girl and to have resented Rial's attentions. Rial, the belief that the bodies were planted on the wooded knoll, where they were found. Absence of signs of a struggle bore out this belief.

Rain which pelted down during the early hours today cut down chances of officers striking a fresh clue. Scores of muddy curious persons attracted to the scene of the crime, may have obliterated tell-tale tracks.

Negatives Believed Innocent. The two negroes being held are not now believed to have any knowledge of the crime. They are being held pending a satisfactory explanation of their whereabouts Sunday night, when it is believed the crime took place.

Identifications in the mystery, the second Beaumont affair, which the city of Beaumont within the course of two short months, came fast with the day. They defined themselves into the following facts:

1. The arrival of three blood-brothers here, two from the Harlan No. 2 farm of Richmond, Texas, and one from Grayburg, all of which are under the direction of Buck Rose.

2. The finding of an wagon truck leading from Port Arthur was discovered Monday to the knoll behind which reposed the bodies of Miss Carl and Rial.

3. A conference between Ranger Captain Roy Nichols and Sheriff Garner, nothing of which was made public.

4. The contemplated arrest of three persons, which will be taken into custody today.

5. A conference this afternoon between the father of Rial and the authorities in charge of the investigation.

Arrest of the two negroes came early last night, the arrests being made by Deputy Sheriff Artie Pollock because of conflicting stories told the authorities concerning what they had seen in the vicinity of the tragedy.

When in charge merely as suspects, it is understood, they gave the names of Harry Livingston, 24, both of whom live within half a mile of where the abandoned automobile was found Monday.

According to Deputy Sheriff Pollock, a white man in the vicinity gave a description of a negro he had seen near the location early Sunday morning.

E. F. Bell, brother-in-law of the slain girl, told his own story of the finding of the bodies of young Rial and Miss Carl today. He said that his immediate family had decided yesterday morning to go in search of the missing pair again, directing their efforts in the vicinity of the wooded spot where the abandoned Ford was found.

"We divided ourselves and spread out, keeping always in sight of each other, so that we could cover the ground thoroughly," he said.

About half a mile from the place where the car stood on Monday, he narrated, he walked over a knoll, pushing through some thick underbrush as he went.

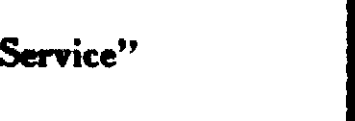

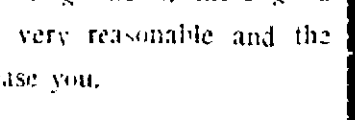

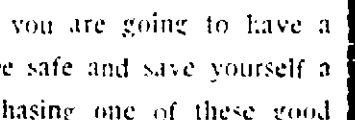

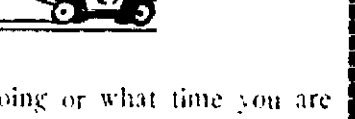

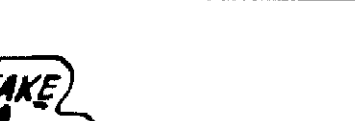

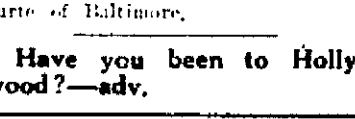

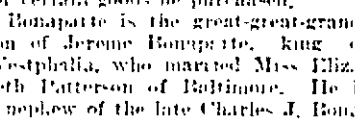

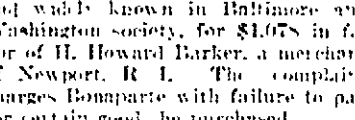

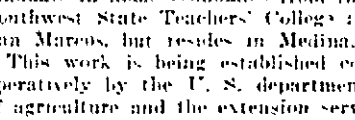

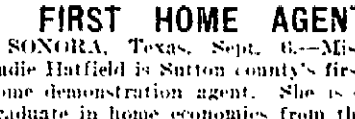

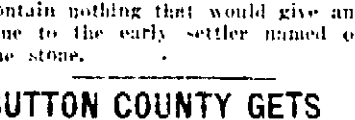

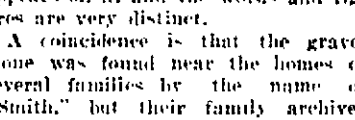

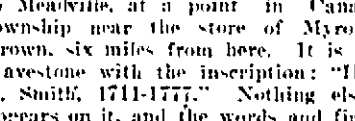

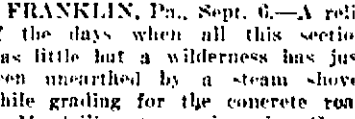

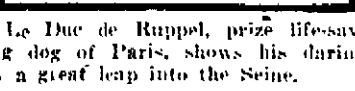

"I could smell something that strongly resembled the aroma of decaying flesh," he asserted, "and was partially prepared for the gruesome sight which I beheld there."

Lying on the ground, their heads pointing toward each other and their bodies outstretched, forming an angle, were the horribly decayed forms of the sister-in-law and Rial."

Other members of the party were immediately called. Bell said, then came the ambulance and police. A thorough investigation of the bodies showed that they were both badly bruised. It was learned today, and that Rial was probably shot through the mouth in addition to the bullet fired through his head. As yet, however, are divided in opinion as to whether either were shot some distance that possibly both Miss Carl and Rial were hurled to death with some kind of a blunt instrument.

Police Detective. The officers, who had been looking out along one of the main roads, (Turn to Page Two, Column 2)

PARTS OF WEST TEXAS DELUGED

STAMFORD, Texas, Sept. 6.—Two houses were blown down and 1.2 inches of rain fell at Stamford late yesterday, according to telephonic advice received here. No one was injured.

Reports received here said 6 inches fell at Sagerton, junction of the Orient and Northwestern railroad, 12 miles northwest of Stamford, and 6 inches southwest of Haskell, nearly 2 inches fell in Stamford.

Showers were reported falling northwest of Stamford this morning, with heavy clouds accumulating for another big deluge.

Pardoned Mutineer Demands Back Pay

PARIS, Sept. 6.—The ex-naval engineer officer, Andre Marty, who was sentenced to a long term of imprisonment for mutiny in the Black Sea fleet during the war and was given the benefit of amnesty a week or so ago, applied immediately after his release for the sum of 5,000 francs in respect for his salary as one of the municipal councilors of Paris.

Marty was elected to the municipal council by his communist sympathizers as a protest against the continued detention in prison of himself and his fellow mutineers.

The minister of the interior to whom the prefect of the Seine referred the question, has now replied, pointing out that Marty was sentenced to 20 years' servitude by a French court martial at Constantinople, the sentence being subsequently reduced to 15 years' simple imprisonment.

As he was actually serving this sentence when he was elected a municipal councilor, he was not entitled to receive the salary attaching to duties which he could not perform. His demand to be paid a salary he has not earned is therefore rejected.

ANCIENT PAPER TELLS FIRST PONY EXPRESS

SACRAMENTO, Sept. 6.—The worn and faded copy of a newspaper, believed to be the only surviving relic of the first trip of the pony express riders from St. Joseph, Mo., to California, and said to be worth, as a result, at least \$5,000, has been discovered in the state library.

It was the original copy of the St. Joseph Gazette, printed upon thin tissue paper a minute before Johnny Frey, the first pony express rider to leave St. Joseph on the first run, jumped on his horse on April 3, 1860, and sped westward on his record-breaking trip across the plains and mountains to Sacramento, 2,000 miles distant.

WIFE GETS DIVORCE SO MAN CAN RE-WED

SAN FRANCISCO, Sept. 6.—So that another woman might take her place, Mrs. Rose Townsend, 2953 Market street, yesterday obtained a divorce from Sherman Townsend, carpenter, who had been her husband since 1918.

She testified before Judge Deasy that while a girl friend was visiting in their home she overheard the girl say to her husband:

"You must choose between Rose and me."

He told his wife, she testified that he had chosen the other girl, and that she had better sue for divorce.

Now in Ditch, Cornwell's Bones May Be Put in Westminster

LONDON, Sept. 4.—The simple matter of burying a water main in a London suburb will disturb the bones of Oliver Cromwell, destroyer of kings.

Oliver once rested in the hallowed precincts of Westminster Abbey.

Charles II. had not long returned to the throne of his executed father when he decided to make of poor Oliver an example. Oliver, along with his chief lieutenants, Ireton and Bradshaw, was turned out of his honorable bier in the Abbey.

For one night the bodies rested in a public bar not far from the Abbey. At daybreak the three corpses were carried to the fearsome Tower Green, site of Tyburn Tree, where were the public gallows. The spot is now marked by a small imbedded cross near the Marble Arch corner of Hyde Park.

On the day, many years ago, when Oliver and his aide were paraded to the Tower, the populace turned out and cheered lustily, while henchmen of the king strung their bodies high above the crowd.

After swinging in the breeze, Oliver and the others were cut down. The bodies were decapitated. The heads were spiked above Westminster hall. The three beheaded skulls became bird nests and the bodies were contemptuously thrown in a pit at the foot of the scaffold.

Now the suburb of Crickwood needs more water. The water department is no respecter of bones, and Oliver's will see the light of day, along with those of his comrades.

Skulls and bones have already been turned up in the process of ditching. There is no known identification mark by which the bones of the three Roundheads may be identified.

So far as is known, however, their

bodies are unique in that they are headless, and the discovery of three headless skeletons will be accepted by the English public as the reappearance of the Protector.

If the bones are really found, that of Cromwell may be restored to Westminster Abbey. King George not having the personal animus Charles II. cherished.

Tomato Is Crown With Human Face

MERKLE, Texas, Sept. 6.—March out your freak tomatoes and see if they will compare with the "human face" variety that has been grown by R. M. Black and now on display here. It is a big, fine, red type tomato. On one side it has developed a shape weirdly resembling that of a human face. Otherwise the tomato is natural.

ROTAN, Texas, Sept. 6.—Material

On With the Dance!

reductions made by the board lower the valuation to \$250,000. This, it was pointed out, does not include the Denton building, which is also owned by Captain Tyrrell, and which the city plans to redevelop before taking any action on its valuation.

Resolution Not Received
Among a large list of other property owners whose valuations were acted upon today, the board reduced the property of Sam Harris approximately \$2,500, while that of G. E. Merwin, of 2311 Thomas boulevard, was cut from \$2750 to \$2400.

It is thought the work of the board will probably be over by the end of the present week.

Although the Chamber of Commerce disapproved of the record of the work as opposed to "excessive valuation on figures," as rendered by the tax expert, installing the unit system and are understood to have planned to make formal protest with the city commission. Commissioner Beechey asserted this morning that no information of official nature had been delivered to the commission.

JEALOUSY CLUE FOUND, CLAIM

(Continued from Page One)

When it was found that the instrument of death in the crime was not from the spot by the assassin. No trace of any weapon has been found.

One of the women in Miss Carl's party was found in the left temple. Another was in the right temple, where two marks were found on top of the girl's head, both blows in the temple, according to examining physicians, penetrated the skull.

A series of indignations were found on Carl's head, and the opinions of examining doctors conflict as to whether they are wounds from bullets or the dull instrument, although the latter is the opinion of the majority.

One wound was found on Carl's head on the right side, just over the lobe of the ear, another being placed diagonally about the center of the right side of his head, while at least two other indignations are to be found on the back of the torso.

Because of the condition of the bodies, it was found necessary to bury them at once. Carl being buried in a wooden casket, while the body of Miss Carl was shipped to the home of her father in Houston.

Arrival of the bloodhounds here, this morning has developed some new angle on the case, it was asserted by those in charge of the investigation, although the opinion has been expressed that in view of the fact that the country adjacent to the Volch road where the bodies were found is marshy, and because of the fact that several days have elapsed since the murder was committed, the bloodhounds may not be able to discover any scents of value in the case.

Many among in conducting the search for the slayer are of the opinion that both Miss Carl and Carl were murdered at the spot where the bodies were found, and that they were then carried to the Volch road, a mile from the Volch road and placed as Carl and his companion.

The absence of any traces of a struggle at either spot, however, places a strange air on the mystery.

A new clue in connection with the case developed this morning when it became known that wagon tracks imbedded in the soft turf of the locality, leading from the abandoned car spot to the place where the tragedy was revealed, had been found.

The tracks, according to the authorities, lead through the woods north from the Volch road to a place 20 feet from the Volch road, where they turn back to the south and travel to the secluded knoll behind which Carl found the bodies.

It is of horses or possibly a mule and also evident, it was said.

As if they had played a conspicuous part in the crime, a few feet from the place where Bessie Carl and her companion lay face upward to the ground and sin that bear down upon them at varied intervals in the days, their bodies repeated there, the wagon and mule tracks turn abruptly back and retreat themselves to the Volch road. There they are either obliterated or continue back over the course they first traversed, and then become lost.

Whether these tracks have anything to do with the crime is indeterminate.

Girl Had Premonition.
Death in a strange manner, gave Miss Carl a premonition of its advent. That, according to her relatives, was evidenced prior to her departure from Houston to spend the weekend with her sister.

Bessie Carl dreamed of death the day night before her departure from Houston, she dreamed of "dying in a casket." She informed her mother of her restless slumbers, but she was chided for submitting to the fears of superstition. Saturday, while she packed for her last trip to Beaumont, she labored under the mental strain of a dream vision which visited her in the night.

JAILS GIRL ON CRIME CHARGE

Father Says It Is to Save Her From Flapperism

CHICAGO, Sept. 6.—Henry Fenners today ordered his daughter, Chrystal, 23, thrown into jail on a criminal charge to save her from "flapperism."

Miss Fenners was arrested on a warrant charging a confidence game when the Fenners bank reported a flood of forged checks coming in.

The girl confessed, according to police that she had been secretly meeting the man alleged to have cashed the forged checks, and had given him about \$1000 of her savings.

Chrystal's case will be heard in English court today. If she persists in her refusal to give up her lover she will be imprisoned, Fenners said. If she promises to quit "flapperism" the father promises to have good the checks.

EPISCOPAL CHURCH IN TOKIO IS WIPED OUT
NEW YORK, Sept. 6.—The episcopate of the Episcopal Church in Tokyo were wiped out, a cablegram received by Dr. John W. Wood of the department of missions from Bishop McKim of Tokyo said today. All missionaries, however, are safe. The property destroyed includes St. Luke's Hospital, two schools, the Cathedral, seven churches in various parts of the city and the houses and fifteen other residences.

SAN ANTONIO DRIES PROTEST ISOLATION
SAN ANTONIO, Texas, Sept. 6.—Liquor stalls stationed here are long since out of the lot being separated from the balance of Uncle Sam's official family.

For the past several months the dry forces have occupied quarters in a private office building due to a lack of available space in the federal building. State Director Frank W. Cole and Harry Hamilton, group head of the dry forces here, have prepared their request that office be provided for them in the government building.

MEXICAN GIVES LIFE FOR FRIEND
SAN ANTONIO, Texas, Sept. 6.—While attempting to rescue a friend from the hands of kidnapers, Manuel Santos, deputy candidate, and a companion, Pedro Guaparo, brother of General Jesus Guaparo, were killed in front of Santos' residence in Monterrey, according to private advices received here.

Little JOURNEYS TO THE LAUNDRY

How your table and bed linens are ironed

This is the Flat Work Ironer on which your table and bed linens are so beautifully smoothed.

It consists of a series of revolving, softly padded rolls which gently press your sheets, table cloths, napkins, and handkerchiefs against a smooth, steam heated ironing surface.

First three girls shake out the wrinkles. Then they carefully place one end of the sheet between the first of the rolls, and as it passes through the ironer it is given that dainty, snowy sheen which every woman prizes.

At the other end of the machine three girls receive the sheet or table cloth, fold it evenly, and place it in a neat pile. When all of your flat pieces have been ironed they are then turned over to another young woman who carefully wraps them in a package with the rest of your washing, ready for delivery to you.

Try this more modern way of having your washing and ironing done. You will find it both satisfactory and economical.

Presbyterian Missions In Japan Safe, Report

NASHVILLE, Tenn., Sept. 6.—A cablegram received here today by L. C. Willis, treasurer of the church mission board, announced that all missionaries of the Southern Presbyterian church in the earthquake area of Japan were safe.

The message was filed at Kanazawa, Japan by L. C. Smith, formerly of Charleston, S. C., a mission worker abroad.

MRS. HARDING GOES TO SAWYER'S MARION FARM
MARION, Ohio, Sept. 6.—Mrs. Florence Harding today returned to her home community.

She arrived at noon from Washington and went at once to White Oaks farm, home of Dr. Carl Sawyer, son of the late President Harding's personal physician.

Mrs. Harding and her party are to remain at White Oaks until the late president's remains are shipped to the West Coast. She had to be hospitalized at the time.

LIGHTNING SLAYS FARMER AT MILAM
CAMERON, Texas, Sept. 6.—C. E. Richards, 27, prominent citizen, was killed by lightning while working in a field of cotton on his farm near Milam.

Mr. Richards had been working in the field for some time when the lightning struck him. He was taken to the hospital but died shortly after.

10 AUTO LICENSES GO TO PT. ARTHUR PEOPLE
BEAUMONT, Tex., Sept. 6.—A total of 10 automobile licenses was issued from the county tax collector's office in Beaumont Wednesday. On this number, 10 were from Port Arthur and 1 were from Beaumont.

The Port Arthur licenses were issued to:

W. M. Cronshaw, 1317 14th Dodge.
W. G. Woodson, 216 5th St., Port Arthur.
H. H. Eason, 522 W. 14th St., Port Arthur.
R. H. Hanes, 5th St. and 14th St., Port Arthur.
R. S. Pyles, 1836 14th St., Port Arthur.
A. Dobbs, 1241 Northland, Port Arthur.
A. H. Wilson, 1910 12th St., Port Arthur.
C. Daigle, 517 11th St., Port Arthur.
R. G. Woodin, 1700 14th St., Port Arthur.
G. W. Pugh, 270 14th St., Port Arthur.

MONKEY BITES BABY FOR THROWING ROCKS
NEW YORK, Sept. 6.—A 10-month-old boy was bitten on the face by a monkey when he threw a rock at it. The boy was taken to the hospital and is now recovering.

CUCUMBER YIELD FOR WISCONSIN IS LARGE
SPRINGFIELD, Wis., Sept. 6.—The cucumber harvest in Wisconsin is large. The season is about 100 days long, but during two weeks it has been average from 150 to 200 bushels per acre.

THIS chart demonstrates that you get more quality for less money when you buy Goodyear tires. Goodyears sell today for 37% less than in 1920; 30% less than in 1914. And their quality has been steadily improved; their superiority is beyond question. This is a good time to buy Goodyears.

NEWSPAPER ARCHIVE

DEAD VICTIMS CLOG STREETS

Groups Stagnantly Meet Death
Marooned by Quake Fire

By MOTO YAMATA
(Assistant Foreign Editor Asahi
Mainichi)
(Written for The United Press)
OSAKA, Sept. 6.—Tales of terror
from the stricken city of Yokohama
have followed the first devastation
wrought by Saturday's quakes came
to Osaka today over the highways
choked with an endless stream of refugees.

Thousands of Japanese seemed to
die simply of heart failure, one sur-
vivor to arrive here declared. The
fury of the quake which the capital's
business section was changed in a
few moments by the heaving earth
shocks was so terrifying a sight that
many inhabitants merely lay down
where they were and died.

Stories of individual heroism also
were added to the first estimates of
casualties and destruction which have
not greatly changed.

It still remains impossible to estimate
accurately the actual death and
property spoils.

With partial establishment of com-
munication with Yokohama, the pic-
ture of what went on in that city, re-
ported to have suffered more severely
than the capital, becomes indescrib-
able.

One couple stands out particularly
in the minds of those who saw Yokohama
in the days that followed the
first quakes. They tell of how he
stood, surrounded by flames, in the
doorway of a fiercely burning build-
ing, helping women and children
through a blazing passage until he
fell dead—merciful asphyxiation freeing
his loved body under its smolder-
ing clothing from further torture.

The stoicism with which groups in
the doomed city met their fate when
the quaking earth and walls of fire
made escape impossible was recounted
by others who had watched the de-
struction, powerless to give aid. When
cut off by flames, the population
in the debris of the streets and
trapped, seemingly helpless of nearby
fires, not caring for their own fate,
calm to the misery of others.

Small floods ran in the streets of
the lower part of the city, peysers of
water spouting through yawning
cracks in the earth rent by the ver-
tical heaving of the quake.

It was in Yokohama that most of
the Americans and foreigners who
perished lost their lives.

Those of the refugees arriving here
who did not leave Yokohama until
Monday said that by that time prac-
tically all the city's foreign survivors
had been taken care of aboard fire-
proof steamers in the bay. Only about
a dozen, including a few Americans,
remained in Yokohama.

One French liner, the Audreton, was
crowded to her rails with Euro-
pean refugees. These included the
French ambassador to Tokyo, who
walked to Yokohama after the quake.

Several of the foreigners who re-
mained in the stricken part of the
city were assisting the Japanese vol-
unteer police to keep order and were
looking after the handful of foreigners
left on hand.

A foreign refugee from Yokohama
said that the entire city fell at the
first quake shock and that the place
was an indescribable mass of ruin.

Tokio, according to the latest ad-
vices received here by airplane, is
filled with wild rumors which spread
among the hungry refugees and keep
them in a constant state of terror.

Worn out with the scenes of de-
struction they have witnessed, their
efforts to escape and lack of food and
decent water, many of the survivors
are afraid to sleep.

"What is going to happen next?"
they ask one another.

Soldiers and police keep close watch
with drawn swords to prevent a panic
that might end in the self-destruction
of thousands more.

The streets are still filled with dead
bodies despite attempts at wholesale
cremation in the burning buildings in
some sections.

Lucking down from his plane into
other streets, the correspondent saw
what he believed to be the bodies of at
least 3000 victims in the length of a
mile.

vival, "Her Dangerous Path."

FEAR OF 'U' OFFICIAL BELIEVED AT TOKIO

AUSTIN, Texas, Sept. 6.—No word
has been received from W. D. Horn-
day, director of publicity of the Uni-
versity of Texas, who is on leave of
absence on a tour of Japan and China,
since the earthquake in Tokio. The
last letters received from him were
sent from Tokio, and considerable
anxiety has been felt by his relatives
and friends since the news of the
catastrophe in that city. According
to his plans as stated in letters, how-
ever, he should have left Tokio on
August 8 for Shanghai, China. Wal-
lace J. Davis, a journalism student
who accompanied him on the trip, was
planning to remain in Tokio for sev-
eral months on the staff of the Japan
Advertiser. His relatives who reside
in Austin are concerned for his safe-
ty.

JEALOUSY BREAKS UP LOVE NEST FOR THREE

ROCK ISLAND, Sept. 6.—An-
gered when the man she is alleged to
have enticed away from his wife and
four babies looked with more affec-
tion upon a younger woman, Mrs. Lil-
lian Liebenheller, 30, a widow, went
to police and by telling her story
caused the arrest of Carroll Cleve-
land, 30.

Until last week he was a member
of the police department.
Cleveland was arrested in Sterling,
Ill.

He is said to have been living with
Helen Jenkins, 16, a Rock Island
girl, who disappeared at the same
time as he and Mrs. Liebenheller.
At first three three lived happily
in a rooming house, according to Mrs.
Liebenheller, and then she broke the
triangle and confessed.

PAIR TAKING WALK KILLED BY LIGHTNING

MADISON, Ind., Sept. 6.—The
bodies of Robert White, 20, and Je-
ssie Wells, 20, were found under a
pile of rocks on Little Cedar cliff,
one mile east of this city. The couple
went walking yesterday, took shel-
ter under the cliff during a severe
electrical storm and were killed by a
bolt of lightning. The young woman
was a teacher in the high school
here and the daughter of Mr. and
Mrs. George Wells, Indianapolis.

Says Rheumatism Leaves You Forever

James H. Allen, once a rheumatic
cripple, who discovered ALLEN-
RHEUMATISM and with it banished every
trace of uric acid and every sign of
rheumatism from his body, says that
every druggist guarantees a full pint
bottle of ALLEN-RHEUMATISM to show the
way to complete recovery or money
back.

It relieves at once and immediately
after you start to take ALLEN-RHEU-
MATISM the good work begins. It sear-
ches out uric acid deposits, dissolves the
secretions and drives rheumatic poi-
son out of the body through the kid-
neys and bowels. Even in cases
where suffering has been pitiable and
painful all traces of this dread dis-
ease disappear in a few days. All
druggists can supply you.—adv.

RAIL EMPLOYEES TO ASK INCREASE

Union Chief Believes Parley
To Decide Action Today

CHICAGO, Sept. 6.—A movement
for new wage increases on all class
one railroads "lies just around the
corner," David Robinson, president
of the Brotherhood of Railway Fire-
men and Enginemen declared today.
Three hundred and fifty general
chairmen of the organization went
into executive session here today to
decide whether or not to launch the
movement at this time.

"Our general chairman will vote on
the question and if they are favor-
able to wage increase will outline
plans to secure them," Robinson said.
"Our big four brotherhood agree-
ments with the roads will all have
expired January 1. Some of our lead-
ers favor a movement for higher
wages and revision of working rules
before new agreements are signed.

LATE FEED CROPS REPORTED AS GOOD

CLAUDE, Texas, Sept. 6.—Grass
and all vegetation is beautifully green
and thriving since the recent rains.
Cotton that was not a victim of the
recent wind and hail storm, is doing
well.

Maize and all late feed crops are
fine and maturing with well filled
heads. It is predicted that maize will
bring a good price this year.

McMULLEN & GLASS

TRENCH SHOES ARE GOOD IN MINES

WASHINGTON, Sept. 6.—The
"old tin hat" that served in some
measure to turn from American troops
the shrapnel half on the war fields of
France is coming into quite extensive
use in California mines as a means
of head protection against falling rock
and ore.

The "trench shoe" also is being
utilized for protecting the feet of
miners.

Many of the soldiers who served
overseas had been miners, and re-
turned to this country with a whole-
some respect for the trench hat and
trench shoes.

HORSE KICKS BOY; INJURY IS SERIOUS

SHERMAN, Texas, Sept. 6.—W.
W. Powell, 12 years old, son of a
farmer living near Sherman, had an
eye removed. He was kicked in the
face by a mule at his home Sun-
day, and is in a serious condition.

GUNTER SCHOOL HAS ADDITIONAL CREDIT

VAN ALSTYNE, Texas, Sept. 6.—
The Gunter public school will open
Monday, Sept. 10. An additional
unit of science has been added and a
very successful school year is ex-
pected by the teachers and the mem-
bers of the school board.

Students:—

Will Be Interested In

BRIDE OF SIX MONTHS TAKES LIFE BY POISON

HAMLET, N. C., Sept. 6.—A neu-
romuscular degeneration, causing pe-
riods of melancholy, is thought to
have caused the death of Mrs. Bolivar
Stark, who committed suicide by
drinking poison.

Mrs. Stark, a six months' bride,
was distinguished in social circles in
this part of the state. At the time
of her marriage she was 21 years old
and a junior at Meredith college,
where she won high honors in the
art department. She was awarded a
scholarship abroad because of her
unusual talent.

CHINESE FOSSILS LURE SCIENTISTS

SEATTLE, Wash., Sept. 6.—
Bound for Mongolia and Tibet where
he will head the third archaeological
expedition of the American Museum
of Natural History, Dr. Henry Fair-
field Osborn of New York sailed from
Seattle.

The expedition, Dr. Osborn said,
expects to unearth fossils of the giant
extinct rhinoceros of Central Asia,
given the name of Baluchitherium.
He described it as a huge animal
standing between 11 and 12 feet high
at the shoulders and with head and
body of enormous size.

will reap the harvest in cash. The man
who lives in Portacres will reap a harv-
est in profit, of food and of

THE NEWS' SOCIAL AND HOUSEHOLD PAGE

AUTUMN STRIKES STEADY STRIDE IN BRINGING THE LATEST FASHIONS FORWARD

Autumn fashions come tumbling in like surf on an autumn beach. None are sensational though, but this season there is much to tell, and more in inevitable as autumn gets into its stride. The annual touch of anxiety is occasioned by the persistence of the straight cylinder gown. Its revival after the dressmaker's insistence upon the circular skirt is sufficiently spaced to its last appearance to give measure of novelty.

Truly, women look out to the new clothes. Plaited plain, they appear to be lighted at the hem. When are added, they are so low that they might be a fancy stitching.

The best dressmakers in the city, however, make immense skirts of tulle, covered with ruffles. It is probable that a sharp distinction will be made between evening street clothes in the silhouette of the skirt. Sleeveless bodices are worn in the sunlight, but France put in long sleeves as autumn dress, so the difference between day and night will have to be in the length and width of the skirt. This is especially necessary fabrics are to be identical in both as of color.

Women have ceased the custom of wearing a "Sunday best"; they go to church in lovely silks, velvets, and furs. Also, they go to dinner, church, card parties in them. The dressmakers are antagonistic to this. Probably that is the reason they have introduced tulle. Really, a woman would be made to wear it to office.

It is quite possible that the circular skirt will vanish, leaving the skirt to the cylinder skirt for the night and the Victorian one for the day. The tight, fitted bodice rises above a wide, ruffled skirt. It is moderately long-waisted, sometimes covered in Chinese flowers, again white crystals.

The struggle to revive the bustle form of a glorified bow of ribbon has died down. It may not be dead, merely quiescent, arising to fight us in midwinter.

Fur will again make its mark as ornamentation. Several kinds are to be used as bands, as cuffs and collars. Even now, in warm weather, black astrakhan is used to outline the edges of white alpaca frock coats.

gown of white white eyelid embroidery has its skirt ruffles banded with black fur.

Fur wraps, short or long, are apt to have flat flounces superimposed on them. Capes of peltry swing from shoulder to hips like one huge ruff, sometimes giving chest protection by a slender vest.

The shawl is a feature of new fashions. It is shown on the cloche and covers the heads of half the women one goes. It makes the jockey cap even more conspicuous.

In the plentiful showing of new autumn hats there is evidence that the helmet with an oblong crown and flat-spreading ribbon band has not been shelved. Again it is in colored cloth. White made with white grosgrain ribbon varies the collection of black, brown and beige.

The high turban of the Orient had short and merry life, but the banana turban will last. You can tell our own as small Parisienne are one for a decade, or the milliner is led to do it for you. Rolling your hair gives the chance to wear several turbans. Odds and ends of crepe, of satin, of brocade can be turned to good coverings.

The three-piece suit goes on its way again. It has assumed the characteristics of the costume known as "the commuter's delight." The skirt pin matches the coat and extends to the lining of the coat matches the blouse, which is rarely a blouse—more often it is the upper part of the frock.

Women who like a variety of blouses in a winter suit deepen the hem of the skirt and attach it to a simple of matching silk. It's a simple trick that serves well.

ONE of the delightful events on the calendar for yesterday was the bridge and forty-two party given by the W. B. A. of the Macabees at the W. O. A. hall.

Five tables of players enjoyed the games of bridge and one table was assembled for the game of forty-two. The hall was attractively decorated.

"MISS CINCINNATI"

This is Miss Olga Enrick, selected from a whole flock of pretty girls as "Miss Cincinnati." Yes, she goes to the Atlantic City contest and everything.

of diversion has been prepared for the evening, and it is hoped that all intermediate Christian Endeavorers and their friends will attend the affair.

MRS. LORRAINE WALLACE carried in the city yesterday morning from Los Angeles, Calif., and is the guest of her aunt, Mrs. H. A. Kiefer of 3119 Fifth street, Model Addition.

THE PROTHEON CLASS, THE T. E. L. Class and the Men's Bible Class of the First Baptist church unite in extending a cordial invitation to all adult members of the First Baptist church, their husbands, and their wives, and also all visiting Baptists in the city to attend their joint church party in the basement of the church this evening at 8 o'clock.

A delightful musical program is being prepared for this evening and refreshments will be served.

MR. AND MRS. JOHN L. STOCKTON left yesterday afternoon for Bethany, Okla., where they will make their home. The trip is being made via automobile.

Mrs. Stockton was formerly Miss Ruth Ross of this city. Mr. Stockton is connected with the First National Bank of Oklahoma City.

MRS. R. A. ALLEN OF 629 Fifth street has as her guests her mother, Mrs. George Ross and her sister, Mrs. Frances Ross of Detroit, Ill.

Mrs. Ross will spend a month in the city but Mrs. Ross will be here for an indefinite length of time.

LITTLE HAZEL MARIE WEBB invited a group of her friends to share in her celebration of her second birthday. The party was held at the home of her parents, Mr. and Mrs. H. T. Webb, 1217 Eleventh street.

There were the usual merry games for diversion and much merriment was afforded the little folks at the cutting of the pretty birthday cake, which formed the centerpiece of the table and on which gleamed two tiny candles.

Refreshments of ice cream and cake were served and enjoyed by Hazel Marie Webb, Jewel Smith.

A DELIGHTFUL ENTERTAINMENT has been planned by the Intermediate Christian Endeavorers of the First Christian church to be given this evening at 7:30 o'clock at the home of Miss Mary Meyers, 2803 Fourth street.

An interesting as well as entertaining program of games and other forms

The Night Dish
Exploded Wheat—Airy, flavorful puffs

Quaker Puffed Wheat in milk forms the greatest night dish people ever get. The grains are steam exploded—puffed to 8 times normal size. Each is a flaky, flavorful globe, a real food confection. And the food cells are broken for easy digestion. Whole wheat supplies 12 minerals which growing children must have. Also their need of bran. Milk is rich in all three vitamins.

Make these essentials so enticing that your family will eat them daily and in plenty.

Quaker Puffed Wheat is rice grains puffed in like way—by Professor Anderson's great process. Fragile in texture, nut-like in their taste. No breakfast dainty was ever so delightful.

Let Puffed Grains bring your folks more joys and better food.

Quaker Puffed Wheat **Quaker Puffed Rice**

MOVIE CAPITAL GETS SHOCKED

Screen Stars Arrested, Play Alleged Indecent

LOS ANGELES, Sept. 6.—Los Angeles, capital of the screen, has been shocked by a New York bedroom farce.

Members of the cast of "Getting Gertie's Garter," and the manager of the theater where the show is running will appear in police court late today to answer charge of city prosecutor Jack Friedman that the show is "indecent and obscene."

The cast includes Marjorie Bennett, a sister of Emil Bennett, film star and many other motion picture actors who work nights here on the legitimate stage.

The show had long run in New York and other eastern cities.

Follows Footsteps Of Father; Pick of Pin May Kill Him

PHILADELPHIA, Sept. 6.—Dr. Carl Vischer, Philadelphia physician, is critically ill in a hospital here today as the result of a septic poisoning which forced him to drop his work several days ago. He has a fighting chance of life.

His father, Dr. Carl Vischer Sr., died 17 years ago at the same hospital from the same poisoning, contracted in the operating room at this hospital, which was the scene of his father's greatest surgical achievement, the institution in which the son has followed his career as a surgeon during the last four years.

Prominent physicians and surgeons who a score of years ago were contemporaries of the late Dr. Vischer have brought all their medical skill to bear in an effort to save his son.

The affliction which resulted in the Dr. Vischer's death was contracted in identically the same way as the malady which now besets his son. The present Dr. Vischer 10 days ago picked up the fourth finger of his right hand with a needle while performing an operation and his condition rapidly grew serious.

Woman Supported By 2 Ex-Husbands

MODESTO, Cal., Sept. 6.—Though supplied with a third husband and receiving money from a second for the support of his minor child, Mrs. Morrison Jones brought suit in the superior court against her first husband, Joe Lebeaux, asking that he furnish \$30 a month alimony for the support of their minor child, Elmo Lebeaux. Judge L. W. Falkner ordered Lebeaux to pay \$10 each month for the next five months and \$11 a month thereafter.

MISS CHRISTIAN MORIARTY'S many friends will be glad to learn that she has been removed to her home, 160 Tenth street, after undergoing an operation for appendicitis at Mary Gates hospital.

THE ORDER OF THE RAINBOW Girls will meet at the home of Mrs. F. A. Timmins, 701 Stowell boulevard, at 5:30 o'clock Friday afternoon.

They will then motor to Beaumont to assist in organizing an assembly in that city. All members wishing to go to Beaumont on this occasion are requested to be at the Timmins home promptly at 5:30 o'clock.

MRS. C. J. MARBITT AND daughter, Misses Ruth and Martha, of 2818 Twelfth street are visiting friends and relatives in Houston.

A PARTY COMPOSED OF MR. and Mrs. L. G. Odum and little son Billy James, and Mr. and Mrs. C. J. Odum and children, Jewell and Ethel Gray, have returned after an enjoyable motor trip to Meridian, Miss. En route home they visited in Vicksburg and Jackson.

They were accompanied to Port Arthur by Miss Selma Gray Odum, who will visit several weeks in Port Arthur with her brother, C. J. Odum.

BELOIT DODGON LOSES ITS GLASS OF FASHION

BELOIT, Wis., Sept. 6.—Beloit's famous Beau Brummel is dead. His name is Sam. He was substituted by the gram reper when an automobile ran over him.

Sam's master, W. B. Morris, had fitted out the little fox terrier with a fine wardrobe of sweaters and dog-blankets embroidered with his name, which Sam wore suitably in season, to the envy of all other dogs.

"Sam dog" was the universal comment of Beloiters when this best-known resident trotted by at the heels of his master, whom he accompanied everywhere in all kinds of weather.

The police took up the investigation when a signalman reported he received a telephone message to re-route

Choosing ones new Fall Dress becomes a pleasure rather than a task—if the prospective chooser will visit our apparel department. Plentiful assortments of last minute styles are ready here at—

\$14.95 to \$69.50

Fabrics, colors and style that have received Dame Fashion's stamp of approval. You'll find the popular satins, satin cantons, plain cantons, chiffon velvets and other silk weaves as well as poirets, charmeuses and many others in woolen materials. All sizes for women and misses.

The Fashionable Woman Will Select Her Fall Suits

Here Now and Enjoy Better Choice

As the season advances the popularity of suits becomes more pronounced. And why not? Doesn't the suit answer the apparel question for numerous occasions when the tang of Fall is in the air?

Fashioned in the stylish point twills, broadbrims, Yalams and other rich fabrics in navy, brown, black, etc., all sizes priced at—

\$27.50 to \$98.50

New Arrivals

Almost too fast to keep up with, the new fall arrivals continue to flow into this store. Among them—

Costs For Little Tots and Girls

Since 2 to 6 years in January little coats are shown in white, gray or tan Chincheillas, Bolivias and Poles, trimmed with fur, buttons, pocket and belts or plain, \$4.75 to \$12.50.

Costs for larger girls of 7 to 15 years are very smart in appearance and developed from excellent fabrics—like velours, poles, marvells, armadillos, broadbrims and bolivias, in the best selling colors, priced \$6.80 to \$29.50.

Women's New Bag Arrivals

Octagon shaped bags of genuine calfskin are smart looking in beige, oter and fawn shades. With usual fittings, \$3.95 and \$4.95.

Vanities also in octagon shapes of genuine hand colored Florentine, with gold etching fitted with mirror, coin purse and cosmetic containers, \$5.95.

New silk moire bags come in black, navy and beige, with bronze metallic frames, \$3.95.

Millinery

Interesting collection of new millinery modes arrived Wednesday. Velvets, velours and sport fells, \$1.98 to \$11.50.

DON'T BE AFRAID TO COME TO DRS. BLAKE & SHEFFIELD

Come right up and have your teeth attended to. Don't be afraid. Don't let the cost of the job or the task of finding the money hold you back.

We have shown hundreds of people already that our offer of CREDIT DENTISTRY is making dental work cost less. We have not only given credit to tooth-troubled people, but we have saved them money.

From your business knowledge, you know what "overhead expense" means, and you know that the bigger the business the less that overhead amounts to.

Now, this is how it works out here. We do dental work and give credit. We attract to our office an immense number of people. We are kept busy from morning until night. There's not an idle moment. The overhead accordingly is cut and trimmed and shaved until you hardly notice it.

What is the result? The individual price of work costs less and we therefore charge less for it.

All a man is worth is his credit. If you don't use it you don't get the worth of yourself.

We only ask you to pay us as you get paid.

Bring us your tooth troubles and we will relieve you of them. Let us introduce you to the health and comfort and happiness that are possible only when the teeth are good. Don't be afraid; come today.

ANCHOR DENTURE PLATE—NO ROOF

ED WURLER, WHO DELIVERS WASHINGS FOR HIS WIFE, LOST A WHEEL OFF HIS DELIVERY WAGON TODAY—HIS PLAN TO SNEAK HOME AFTER DARK WAS UPSET WHEN HE STEPPED ON A SQUEAKY BOARD—

"I hope you'll like the west," said Mister Gallop.

"Well, well, well! I'm glad to see you," said Mister Gallop, stepping out of his cave in the Red Rock.

"And we're glad to see you, too!" said Nancy and Nick, climbing down off their ponies and shaking hands with the cowboy fairly.

"I hope you'll like the west," said Mister Gallop.

"Why, we love it already," declared Nick, looking around. The ponies had brought the twins up a mountain path no wider than a dinner plate to Mister Gallop's cave. And from where they were standing they could look straight down, miles below, it seemed, where the prairie spread out in a great flat ocean of land.

"My, oh, my, but the world's big!" sighed Nancy.

"Yes, it is," agreed Mister Gallop, "but not big enough for some folks. That's my job out here, a sort of warden or ranger, or whatever you call people who keep order."

"There can't be many people living here," remarked Nick in surprise. "I don't see a house."

"Shh!" Mister Gallop put his finger over his lips. "Right over there," he whispered, pointing to a sharp rock with a dark place underneath. "Live Mrs. Bear and her two children. Right beyond those pine trees live Mr. and Mrs. Antelope. Up on top of that bald place in the cliff lives old Granddaddy Golden Eagle. And down on the prairie live so many people I can't tell you. Why all those lumpy places are prairie-dog houses. They've got a whole town laid out, but the silly things have their front doors on top. And jack rabbits grow so big out here they look like dogs. Mister Kyote (coyote) thinks he owns the whole place and lives anywhere he feels like. He's a mean one and makes a meal of any one who happens to be handy. That's part of my job to watch that gentleman. Of course, he doesn't come up into the mountains where he is."

"What do you do when anyone's bad?" asked Nancy.

"I lasso them with my lasso," said Mister Gallop, pointing proudly to a coil of rope lying near.

(To Be Continued)

NON-STOP PASSENGER TRAINS IN ENGLAND

LONDON, Sept. 6.—Noiseless non-stop passenger trains are in operation over 900 yards of track at South-end, England.

A revolving, endless screw laid the length of the track meshes with fixed ones beneath the cars. At stations the worm revolves as rapidly as elsewhere on the line, but the meshing ridge is altered in the same way that a long curled shaving from a hand plane changes when it is stretched.

This reduces the speed of the train to about that of an escalator and passengers may step off with safety.

Away from stations the speed of the train is twenty-four miles per hour.

PAYS FOR THEFT OF MANY YEARS AGO

ELYRIA, Ohio, Sept. 6.—"The Lord has taught me that I owe you, as I was in your store at one time, several years ago, and I picked up a pair of gloves and did not pay for them."

This statement is contained in a letter received by the proprietors of the Elvira Dry Goods store, signed by a woman giving the name of Mrs. C. Davis. She enclosed a money order for \$2. The writer lives in a distant city, the location of which was not disclosed by the store's proprietors.

LITTLE LAMB FLOORS MARY AND BUTTS HER

YONKERS, N. Y., Sept. 6.—In response to an appeal by telephone, police had to restrain a little lamb which, unlike the week little one of Mary's in the parable, attacked and severely injured Mary Yancicols, 3 years old, of Yonkers.

The little girl's father, Anthony Yancicols, explained that a white lamb had little Mary down on the ground and was biting and mauling her. Patrolmen McCormack and Leenick were hurried to the scene and rescued the child.

MORE LAND TO BE GIVEN TO MEXIANS

MEXICO CITY, Mex., Sept. 6.—Between 25,000,000 and 40,000,000 hectares of federal land in Mexico are available for distribution among its citizens under a recent decree by President Alvaro Obregon. It is estimated. Under the decree, it is provided that any Mexican over 18 years of age may take a homestead on national property. The land is reported available in 21 states of the republic.

NUMEROUS COTTON THEFTS REPORTED

MOUNT VERNON, Texas, Sept. 6.—Several farmers in this county report cotton being stolen from their cotton pens on account of which they are compelled to haul their cotton out of their fields at noon as well as at night. A number of indictments have been returned for these thefts.

Yes, we have Robinhood today at Peoples theatre.—adv.

WINTERS INSTALLS NEW PUMP SYSTEM

WINTERS, Texas, Sept. 6.—By the middle of the month Winters water will be pumped by an electrically operated pump now being installed. The power transmission line is being extended to the water works at the Lake Clouston Ferry, connected with the San Angelo Water, Light and Power company, the company furnishing the "juice" has been here arranging for the transformation from steam to electricity. A great saving will be effected by the conversion, it is said.

FOUR SHIPS JOIN IN INTER-OCEAN RUM FLEET

NEW YORK, Sept. 6.—Four steamships are now anchored along rum run off the entrance to New York harbor. It is believed they have increased the tonnage of the rum fleet to a volume never reached before. There are in addition 11 schooners. Two of the steamers are of British registry, according to the government report, and the other two are French.

BOY IS ATTACKED BY MAD COYOTE

TUCUMCARI, N. M., Sept. 6.—Henry Huey, six years old, living near Glenwood, while driving some stock to water recently was attacked by a coyote. While escaping the boy was bitten several times on the leg. The coyote was foaming at the mouth. The child is under observation to determine whether the animal was suffering from rabies.
